Extended routing for DV4mini

Negative items

What is missing on the current dashboard?

Tools spread over different sites

Self-care

Text Messaging (APRS)

Network overview

Dashboard V2.0

“Project Halligan”

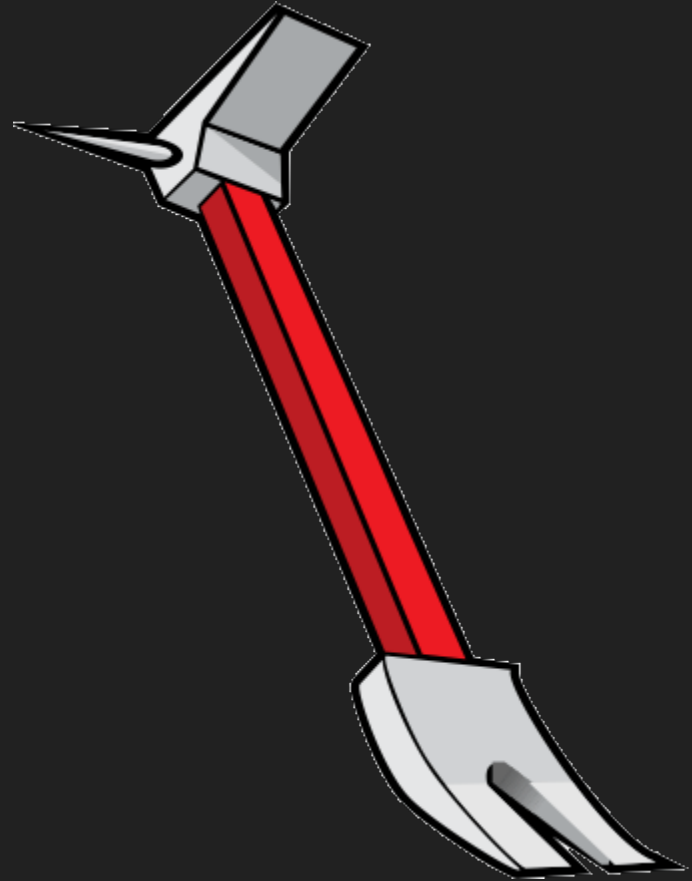

What is a Halligan?

Firefighting tool

Multiple purposes

Opening cars after an accident

Opening a bottle of beer

Why a new dashboard

Old dashboard code was not suitable for new features

Current template contained problems

Better responsive design

User intergration (self-care)

Master Server & Repeater configuration

Better support for mobile devices

What is about the roadmap?

Phase 1 (1.3)

- Current dashboard functions implemented

- Dstar.su account migration

- Self-Care

- User profile

Phase 2 (1.4)

- Master server management

- Master server statistics

Phase 3 (1.5)

- Repeater management for sysops

Phase 4 (1.6)

- Code refactoring

- Sourcecode release (make it opensource)

Supporting BrandMeister Published by ON3YH

Have you always wanted to support your most favorite DMR Network? Now you can because this weekend we'll be selling **STICKERS!** Come say hi at our booth in Friedrichshafen (Hall A1 stand 742) if you want to buy a sticker to support us! They are being sold for 1€ a piece.
